Do you have questions about sampling situations that you don't know how to handle? Are you familiar with the methods utilized when you submit your samples to the laboratory for bacteria analysis? Join us for this informative event which will explore the importance of proper sample collection as well as provide you with details about how samples are tested in the laboratory for bacteria.

Featured Presenters:

Mark Tracy, Field Services Manager —

E.S. Babcock & Sons, Inc. Environmental Laboratories

“Water Quality Sampling Guidelines — How to Obtain a Sample Which Retains Its Scientific Integrity and is Legally Defensible”

Carol Kase, Microbiology Manager —

E.S. Babcock & Sons, Inc. Environmental Laboratories

“Methodologies Utilized in the Laboratory for Bacterial Analysis”
